Program Summary

The purpose of this grant is to provide mental, medical, and dental support services to the chronically homeless mentally ill residents of Lincoln Parish who originated in Lincoln Parish and are receiving residential treatment and services provided by Elisha Ministries, Inc.

Grant Objectives:

1. Provide client mental health assessments, mental health planning and case management, as well as needed psychiatric medications to residents who are without medical insurance.
2. Provide client physical health assessments, physical health planning and case management, as well as arrangement of appointments and transportation to medical providers for clients who are without medical insurance.
3. Provide examinations and services to clients in need of dental services, as well as related medications for clients who are without insurance.
4. Provide medical devices (e.g., glucometers, breathing machines, wheelchairs) and other assistive devices for clients who are without medical insurance.
