

Improving Health Care and Outcomes for Residents of Lincoln Parish

June 17, 2016

Mr. James D. "Buddy" Caldwell
Attorney General
State of Louisiana
P.O. Box 94005
Baton Rouge, LA 70802

Re: Lincoln Health Foundation Annual Report

Dear Mr. Caldwell:

Pursuant to the obligations set forth in the Certificate of Incorporation of Lincoln Health System, Inc., filed with and approved by the State of Louisiana at the time of sale of Lincoln General Hospital in 2007, please find attached the information and documents that were presented by the Foundation in its annual public meeting on May 19, 2016 at the Lincoln Parish Public Library in Ruston, Louisiana. This public meeting, held annually, fulfills the Foundation's obligation to present information to the public in an annual meeting.

The audited financials of the Foundation for the period ending September 30, 2015 are also included with the attached information.

If you have questions, or need additional information concerning the presentation or attached documents, please don't hesitate to contact me at 318-251-3226, extension 100.

Sincerely,

A handwritten signature in blue ink, which appears to read "Norman L. Hanes".

Norman L. Hanes
Chief Executive Officer

Welcome & Opening Remarks
Dr. Nancy Smith, Chair

2016 LHF Annual Public Meeting *(Thu.19.May.2016)*

Dr. Nancy Smith – Opening Remarks - Script DRAFT

Good afternoon. On behalf of the Board of Directors of Lincoln Health Foundation I would like to thank you for joining us for our 2016 Annual Public Meeting. I am Dr. Nancy Smith and I serve as Lincoln Health Foundation's President and Board Chair. I have served as a Board member since 2013 and as its President beginning last year.

The purpose of this annual meeting is to provide you, the public, an update on Lincoln Health Foundation's mission to improve health care and outcomes for residents of Lincoln Parish. We are required by the Louisiana Attorney General to conduct an annual meeting where we present our current initiatives, discuss the Foundation's future, and give you an opportunity to ask questions and provide input.

Lincoln Health Foundation is managed by a nine member Board of Directors. Each Board member serves a 3 year term with reappointment to additional 3 year terms possible. Our Board members are:

- Coach Wilbert Ellis (Vice Chair)
- Mr. James Davison (Secretary / Treasurer)

- Mr. John Belton
- Mrs. Sonja Cardwell (Appointed by Lincoln Parish School Board)
- Dr. Allen Herbert (Physician Representative)
- Dr. Gary Luffey (Appointed by the Lincoln Parish Police Jury)
- Mr. Mark Taylor (Appointed by Lincoln Parish Mayors)
- Mr. Willie Washington

All of these Board members serve on a volunteer basis and I want to publicly express appreciation to them for their work.

The Foundation's attorney is Bill Jones.

The Foundation's Chief Executive Officer is Norman Hanes, and the Foundation's office is located at 305 South Vienna St.

Funding Resources:

With regard to the sources from which the Foundation receives its funds, we are fortunate to have 3 primary sources of funding:

First, the Foundation receives an annual bequest from the William Harold Sturgis estate which requires that the Foundation utilize the funds for indigent health care in Lincoln Parish. The amount of the awards vary, but average approximately

\$160 thousand annually. To date, the Foundation has received nine bequests totaling \$1.5 million, and the monies from this bequest have been utilized almost exclusively to fund health care initiatives for needy students in Lincoln Parish schools.

The Foundation also administers the Mary Jarrell Scholarship Fund which is used to fund nursing education in Lincoln Parish. Since 2014, we have had the opportunity to provide approximately \$40 thousand for nursing scholarships at Louisiana Tech Department Division of Nursing, and for Grambling State University's master level nursing program. The current corpus in that account is approximately \$ 350 thousand. On an annual basis, the Foundation distributes approximately 4 percent of the corpus to fund those scholarships.

Lastly, the Foundation's largest source of funds came from the sale of Lincoln General Hospital on April 1, 2007. The final distribution of funds was received from Lincoln Health System in 2010 and the current corpus is approximately \$28 million.

By law, the Foundation is required to distribute 5% of its corpus each year. This means that since 2010 we have distribute approximately \$1.2 million each year for specific health needs occurring in Lincoln Parish as per the Foundation's strategic plan. This strategic plan was based on the results of a comprehensive health needs assessment that was completed in 2008 and has been the basis for

the \$ 8.3 million that the Foundation has funded in Lincoln Parish for health care initiatives.

Our goal is to preserve the corpus and to use earnings from investments to accomplish the Foundation's mission. Obviously, our ability to preserve the corpus depends on the performance of the investment market. The Foundation's funds are invested equally with Argent Financial Group, Regions Morgan Keegan Trust, and J.P. Morgan. The performance of the Foundation's investments is reviewed monthly and the investment agreements with these advisors are evaluated annually.

The Foundation uses Huffman & Soignier, Certified Public Accountants, for its annual audit and other reporting requirements. Copies of our audits and tax returns are available on the Foundation's website.

Closing Remarks

The Board of Directors is excited about the programs that have been completed to date and very optimistic about the funding initiatives that are currently in progress, as well as those we will be funding later on this fiscal year.

In a few minutes, Norman Hanes, our Chief Executive Office, will address the Foundation's current and upcoming strategic plan initiatives, but before he comes to the podium, I would like to introduce Mrs. Cathy Cox-Boniol, Project Achieve Coordinator for Lincoln Parish Schools who will be making a few comments about the work Lincoln Health Foundation and Lincoln Parish Schools have been involved in since 2008 to address specific health-related needs of students in Lincoln Parish. I would also like to add that the refreshments we are enjoying this afternoon have been provided by Lincoln Parish Schools, and we thank Cathy for that. Ladies and gentlemen, Cathy Cox-Boniol.

INDEPENDENT AUDITORS' REPORT

Board of Directors
Lincoln Health Foundation, Inc.
305 South Vienna Street
Ruston, Louisiana 71270

We have audited the accompanying financial statements of the **Lincoln Health Foundation** (a non-profit organization, the Foundation), which comprise the statements of assets, liabilities, and net assets-modified cash basis as of September 30, 2015, and the related statements of revenues, expenses and other changes in net assets-modified cash basis and cash flows-modified cash basis for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the modified cash basis of accounting as described in Note 1.A.; this includes determining that the modified cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

**Board of Directors
Lincoln Health Foundation, Inc.
Ruston, Louisiana**

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the Foundation as of September 30, 2015, and the results of its operations and its cash flows for the year then ended in accordance with the modified cash basis of accounting as described in Note 1.A.

Prior Period Financial Statements

The September 30, 2014 financial statements were reviewed by us, and our report thereon, dated February 3, 2015, stated we were not aware of any material modifications that should be made to those financial statements for them to be in conformity with the modified cash basis of accounting. However, a review is substantially less in scope than an audit and does not provide a basis for the expression of an opinion on the financial statements.

Basis of Accounting

We draw attention to Note 1.A. of the financial statements, which describes the basis of accounting. The financial statements are prepared on the modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinion is not modified with respect to that matter.

LINCOLN HEALTH FOUNDATION, INC.
Notes To The Financial Statements
For the Years Ended September 30, 2015 (Audited) and 2014 (Reviewed)

Introduction

On July 30, 1996, the Lincoln Health Foundation, Inc. (the "Foundation"), a Louisiana nonprofit corporation, was organized exclusively to support and benefit Lincoln Health System, Inc. d.b.a. Lincoln General Hospital (the "System") in Ruston, Louisiana. The System is 69% owned by the Foundation and 31% owned by St. Francis Medical Center and Willis-Knighton Medical Center, which are tax-exempt organizations.

On March 31, 2007, the System entered into a purchase agreement with Community Health Systems, Inc. ("Purchaser") to sell the hospital operations and various other assets for approximately \$36,000,000, less adjustments per the agreement. After the sale of hospital operations, the System's main purpose has become to manage the remaining investments until the System's remaining assets can be liquidated to the remaining owners and to help support healthcare services in the local community.

In accordance with the purchase agreement, the Purchaser deposited a portion of the purchase price (\$18,000,000) into an interest-bearing escrow account for three years to pay any unforeseen liabilities of the System. In March 2009, the Foundation received the first distribution from the sale of \$9,666,466, which consisted of \$350,900 in cash and \$9,315,566 in investments. In April 2010, the Foundation received a cash distribution of \$12,600,000 from the escrow account. The settlement date of any potential future receipts has not yet been determined as the Foundation's remaining \$602,008 investment at September 30, 2010 in the System is being held for any potential future liabilities of the System (except as noted below).

The Foundation received a distribution of \$715,293 in February 2011. Of this amount, \$602,008 reduced the investment in the System to \$0 and \$113,285 was recognized as revenue. The System still maintains a contingency fund of \$425,000 of which \$294,231 represents the Foundation's portion. As it is unknown if the Foundation will ever receive these funds, no investment has been recorded for this amount.

The purpose of the Foundation is to use the sale proceeds and liquidating distributions to improve healthcare and quality of life for residents of Lincoln Parish in Louisiana.

Note 1 - Summary of Significant Accounting Policies

A. Basis of Accounting

The Foundation's financial statements are presented on the modified cash basis of accounting. Accordingly, these statements reflect revenues when received rather than when earned and expenses are recognized when paid rather than when incurred with the exception of investments which are recorded at fair market

LINCOLN HEALTH FOUNDATION, INC.
Notes To The Financial Statements
For the Years Ended September 30, 2015 (Audited) and 2014 (Reviewed)

value resulting in unrealized gains and losses.

B. Cash and Cash Equivalents

It is the Foundation's policy to define all highly liquid investments with an initial maturity of three months or less as "cash and cash equivalents" with the exception of cash in investment accounts which is classified as "investments".

C. Investments

Investments in marketable securities with readily determinable fair values and all investments in debt securities are reported at their fair values in the statement of financial position. Unrealized gains and losses are included in the change in net assets. Gains or losses on the sale of securities are recognized on a specific-identification method.

The Foundation maintains three unrestricted investment accounts (Argent, JPMorgan Chase, and Regions) and one temporarily restricted investment account (Argent). Investment performance of each account is reviewed at each Board meeting. Each of these accounts has the following characteristics except where differentiated:

Credit risk - The Foundation minimizes credit risk, which is the risk due to the failure of the security issuer or backer, and concentration of credit risk by investing in the following instruments in accordance with specific asset allocation parameters:

1. Stocks - The portfolio is well diversified to avoid undue exposure to any single economic sector, industry group or individual security. Common and convertible stock is of good quality and listed either on the New York Stock Exchange or American Stock Exchange or traded in the over-the-counter. The requirement is such that stocks will have adequate market liquidity relative to the size of the investment. No more than 5% of the investment portfolio is invested in the security of one issuing corporation. No more than 10% of the market value of the investment portfolio is invested in one industry group. Investment in any corporation will not exceed 5% of the outstanding shares of the corporation.
2. Fixed income investments - The portfolio maintains an average credit quality of A or better. Individual corporate bonds at the time of purchase must be of investment grade quality or better. No limit is placed on investments in U.S.

LINCOLN HEALTH FOUNDATION, INC.
Notes To The Financial Statements
For the Years Ended September 30, 2015 (Audited) and 2014 (Reviewed)

government guaranteed obligations. Any investment in any one issue excluding U.S. government guaranteed obligations should not exceed 5% of the total fixed income portfolio.

3. Short-term investments -
 - a. Commercial paper - quality must be not less than A-1 as rated by Standard & Poor. Investment in any one issue does not exceed 5% of the investment portfolio of the Foundation.
 - b. Certificates of deposit – must be fully insured by the Federal Deposit Insurance Corporation or must be collateralized by qualifying investment securities. The underlying collateral of collateralized certificates of deposit is subject to the 5% limitation.

D. Property and Equipment

The Foundation capitalizes the cost of property and equipment in excess of \$1,500 with a useful life of more than one year. Improvements are capitalized when they extend an asset's useful life or increase its value. Otherwise, they are charged to operations. Donations of property and equipment are recorded at their fair value at the date of the donation. The Foundation uses the straight-line method of depreciation, with estimated useful lives of five to ten years for furniture, fixtures and equipment. The Foundation sold all of its assets and any required assets are provided in conjunction with the lease in Note 4.

E. Grants Payable

The Foundation awards grants annually to entities that promote the health and enhance the quality of life of all residents within certain northeastern Louisiana parishes based on an application process. When payments toward the grants are approved by the Board, they are recorded as a payable at that time and are disbursed according to the terms of the grant agreement at a certain point in the future. Normally, these payments are made within the same fiscal month as the approval.

F. Net Assets

The Foundation reports information regarding its net asset position on the modified cash basis according to three classes of net assets: unrestricted net assets, temporarily restricted net assets, and permanently restricted net assets, based upon the existence or absence of donor-imposed restrictions. As of September 30, 2015 and 2014, there were no permanently restricted net assets.

LINCOLN HEALTH FOUNDATION, INC.
Notes To The Financial Statements
For the Years Ended September 30, 2015 (Audited) and 2014 (Reviewed)

G. Contributions

The Foundation records contributions and grants when received. All contributions are considered to be available for unrestricted use unless specifically restricted by a donor. Amounts received that are designated for future periods or restricted by the donor for specific purposes are reported as temporarily restricted or permanently restricted support that increases those net asset classes. When a restriction expires (that is, when a stipulated time restriction ends or purpose restriction is accomplished), temporarily restricted net assets are reclassified to unrestricted net assets and reported in the statement of activities as released from restrictions. The Foundations policy is to first apply restricted resources when an expense is incurred for which both restricted and unrestricted net assets are available.

H. Advertising Costs

Advertising costs are expensed when paid. Such costs amounted to \$4,017 and \$1,790 for the fiscal years ended September 30, 2015 and 2014, respectively, and are included in administration expenses.

I. Income Taxes

The Foundation is exempt from federal income taxes under Section 501 (c) (3) of the Internal Revenue Code (IRC). However, since the Foundation is a private foundation a form 990-PF is filed annually and the Foundation pays an excise tax based on net investment income. The Foundation is also required to review various tax positions it has taken with respect to its exempt status and determine whether in fact it is a tax exempt entity. The Foundation must also consider whether it has nexus in jurisdictions in which it has income and whether a tax return is required in those jurisdictions. In addition, as a tax exempt entity, the Foundation must assess whether it has any tax positions associated with unrelated business income subject to income tax. The Foundation does not expect its positions to change significantly over the next twelve months. Any penalties related to late filing or other requirements would be recognized as penalties expense in the foundation's accounting records. Excise taxes in the amounts of \$11,693 and \$2,335 were paid for the years ended September 30, 2015 and 2014, respectively.

The Foundation's federal form 990-PF for the tax years ending September 30, 2012 and after remain subject to examination by the Internal Revenue Service.

LINCOLN HEALTH FOUNDATION, INC.
Notes To The Financial Statements
For the Years Ended September 30, 2015 (Audited) and 2014 (Reviewed)

J. Estimates

The preparation of financial statements in conformity with the modified cash basis of accounting requires management to make estimates and assumptions that affect financial statement amounts and disclosures. Actual results could differ from those estimates.

Note 2 - Investments

Investments are reported in these financial statements at fair market value.

	<u>Market</u>	<u>Cost</u>	<u>Unrealized Market Gain (Loss)</u>
For the year ended September 30, 2015			
Money market / cash	\$ 1,445,565	\$ 1,445,565	\$ -

Total	<u>\$ 26,415,145</u>	<u>\$ 24,590,652</u>	<u>\$ 1,824,492</u>
Restricted assets - investments	\$ 375,584		
Investments	<u>26,039,561</u>		
Total	<u>\$ 26,415,145</u>		
For the year ended September 30, 2014			
Money market / cash	\$ 1,636,574	\$ 1,636,574	\$ -
Domestic equity	13,861,492	10,552,571	3,308,921
International equity	3,468,782	3,441,309	27,473
Domestic fixed income	9,008,220	8,972,901	35,320
Total	<u>\$ 27,975,068</u>	<u>\$ 24,603,355</u>	<u>\$ 3,371,713</u>
Restricted assets - investments	\$ 397,326		
Investments	<u>27,577,741</u>		
Total	<u>\$ 27,975,068</u>		

Note 3- Temporarily Restricted Funds

As of September 30, 2015 and 2014, temporarily restricted net assets consisted of \$19 and \$157,682, respectively, of funds received for the treatment of indigent patients and \$375,584 and \$397,326, respectively, for scholarships.

LINCOLN HEALTH FOUNDATION, INC.
Notes To The Financial Statements
For the Years Ended September 30, 2015 (Audited) and 2014 (Reviewed)

Note 4 - Contracts and Leases

The Foundation contracted all management services in a 2-year management service contract approved by the Board on September 18, 2013. The contracted services totaled \$93,706 and \$93,706 for the years ending September 30, 2015 and 2014. The Foundation also leases office space as part of the service contract. For the fiscal years ended September 30, 2015 and 2014, office space rental expense amounted to \$14,400 and \$14,400, respectively. Beginning with the year ended September 30, 2015, the Foundation added to the management contract fixed monthly costs for copies, telephone and communications and computer and software. These totaled \$7,600 for the year ended September 30, 2015. In September 2015, the Board approved the extension of this contract for two years through September 30, 2017 under the same terms as the prior contract.

Note 5 - Concentrations

The Foundation maintains its cash balances in financial institutions in the United States. The cash balances (excluding those held with investments) are insured by the Federal Deposit Insurance Corporation up to \$250,000. At times, the Foundation exceeds the federally insured limits. The risk is mitigated by maintaining deposits in only well capitalized financial institutions. The Foundations cash balances were fully insured at September 30, 2015 and 2014.

Note 6 - Subsequent Event

Management has evaluated subsequent events through February 24, 2015, the date which the financial statements were available to be issued and noted no events occurring subsequent to the reporting period that need disclosure.
